Room and board: \$3,500

To enroll, use the link below, or call 1-800-2REVIEW ext. 1038.

A world-renowned destination, Orlando truly has something for everyone. With our theme parks, unique resorts and restaurants, shopping opportunities for every budget, all-season golf courses, and beautiful nearby beaches, you won't have to wonder too long why this city is always among the most visited destinations in the country year after year. Whether visiting Disney World is your dream vacation or you prefer a bustling downtown with a thriving arts and culture scene, Orlando offers the world's premiere tourist destination that you, as an MCAT2015 Summer Immersion student, won't have time to see.

That's because for six weeks, you'll be immersed in the most intensive MCAT2015 preparation available. That's right: in just 42 days, some of the best MCAT2015 instructors in the country will provide up to 481 hours of custom-designed MCAT2015 instruction. That means that no matter what our great city has to offer, while you are an immersion student with us what you will mostly see is the inside of our 4300+ page MCAT textbooks.

Our Summer Immersion course is located on the scenic campus of the University of Central Florida. Rated a "Top Up-and-Coming" national university by *U.S. News and World Report*, UCF is the nation's second-largest university and home to the UCF College of Medicine, which epitomizes high-tech learning tools and innovation, and will be educating 480 physicians-in-training a year by 2016-2017. What better place to immerse yourself in the 2015MCAT than at a university that aspires to be the nation's premier 21st-century college of medicine?

Six weeks of MCAT2015 Summer Immersion

- Classes are held by our renowned instructors from 8am to 10pm, with breaks for lunch and dinner.
- MCAT2015 Summer Immersion UCF consists of over 100 interactive lectures followed by office hours, which focus on group work and reinforce recent core lessons. In addition, students get teacher-supervised study halls and independent study.

Course Features

- Science content lectures (biology, physics, G-chem, O-chem) with Orlando's finest instructors, who are experts in their field of study
- CARS prep sessions

- Access to *amplifire*, our revolutionary new technology that leverages key findings from Nobel Prize–winning brain research to produce extraordinarily high knowledge-retention rates so you can learn more efficiently. Click [here](#) to learn more.
- 5 proctored full-length practice tests (6 total online) and 5 test review sessions
- Individual attention, teacher-supervised study halls, and independent study

Extra Perks

- An orientation dinner where you can meet Princeton Review staff, instructors, and fellow Summer Immersion students
- A lakeside picnic with canoeing and other activities
- Free Days to attend any of Orlando’s theme parks

1:00-3:00pm:	Lecture
3:00-5:00pm:	Lecture or Office Hours
5:00-6:00pm:	Dinner
6:00-8:00pm:	Independent Study/Office Hours

*Please note: Schedule specifics are subject to change.

Room and Board

Room and board are available for an additional cost. Accommodations for students enrolled in The Princeton Review's MCAT2015 Summer Immersion Program in Orlando are available on campus at the University of Central Florida.

Each student will get a single bed within furnished, air-conditioned suite-style apartment residences that include a kitchenette, common living area, and semi-private bathrooms. You'll have access to campus dining areas and multiple on-site restaurants for all of your meals.

Laundry

Students enjoy coin-operated laundry facilities located in the assigned housing facility.

Internet Access

Students are REQUIRED to bring their own laptop computers for testing, test review, and homework. Wireless Internet access will be available in the dorm rooms and classrooms.

Emergencies

The staff of MCAT2015 Summer Immersion is available by phone 24 hours a day, 7 days a week. They'll be your main point of contact for any residency issues that may arise during your stay. Security and police/fire/ambulance (emergency: 911) are also available 24/7.

Instructors

Only the most successful MCAT Instructors—those who deliver the greatest score improvements and receive the best reviews—are called on to lead our MCAT Summer Immersion programs. These are the folks who develop our courses and materials and train and certify our MCAT instructors all over the world. Your MCAT Summer Immersion team will include:

Christopher Knuth – Verbal Instructor

Premier Level Tutor
Master Trainer

Christopher Knuth studied at The University of Central Florida. One of our most tenured tutors, he has been with The Princeton Review for over ten years. He is a Premiere level tutor for GRE, LSAT, SAT, ACT, MCAT, and GMAT, as well as a Master trainer for GMAT, SAT and ACT (master trainers teach our teachers). Therefore, not only our students, but also, our teachers, sing Chris' praises.

Around the office, his coworkers are consistently amazed with his logical reasoning and memory. He denies that he has a "photographic memory," but we can't remember anything that he has ever forgotten.

John Hall – Organic Chemistry, Physics Instructor

B.S. in Biomedical Engineering, Vanderbilt University, Nashville TN

John has been teaching for The Princeton Review since 2011 and has clocked over 700 hours working with Princeton Review students. While pursuing his engineering degree in Nashville he began teaching physics to aspiring medical students in a classroom setting. Since coming to DC to work for the United States Patent and Trademark Office, he has expanded to private tutoring in multiple subjects to take a more active role in improving the test scores of his students. When he isn't teaching or reading patent literature, John is practicing Latin dance and listening to an obscene number of podcasts. John teaches and tutors the MCAT (Physics and Organic Chemistry), SAT, and SAT Subject Tests (Math 1 and 2).
